O'ROURKE'S PEAK CELLARS – British Columbia

SUSTAINABLE

An exciting new project in Lake Country founded by Albertan Dennis O'Rourke. In 2012 O'Rourke hired Adrian Baker the former Head of Cool Climate Oenology from Craggy Range (NZ), to oversee the mapping of soil types and the planting for a single 200 acre vineyard on a perfect south facing slope over Lake Okanagan. Planted exclusively to Burgundian and Germanic varietals, the vineyard also includes the largest planting of Gruner Veltliner in BC. GIOVANNI MANZONE – Piedmont

ORGANIC

Located in the gorgeous hilltop town of Monforte, the history of this family estate dates back to 1929 when Giovanni Manzone bottled his first wines from the historic hill of "Gramolere" and eventually added bottlings from the Barolo crus of "Castelletto" and "Bricat". The Wine Advocate describes Manzone as a winery that "... continues to produce some of the most unique Barolos in the zone. Although his hometown of Monforte is best known for structured wines, Manzone's vineyards are among the highest in the region, and as a result his wines show unusually delicate, often ethereal personalities"

DOMAINE RICHAUME – Provence							
ORGANIC / BIODYNAMIC							
Situating at the base of Mont Sainte Victoire in the heart of Provence, Richeaume was founded in 1972 by Swiss born/Yale based academic Henning Hoesch. Hoesch had very specific ideas for the estate, becoming one of the first in the region to both farm organically and to plant Bordeaux varietals. In the late 1990s Henning ceded winemaking duties to his son Sylvain, who had trained with Paul Draper at Ridge Winery. Heavily influenced by his time with Draper, Sylvain determined that the Provence AOC rules were not in line with his vision for the wines so Richeaume works exclusively under the IGP designation because it affords more creativity with less rigid regulation.

ORGANIC							
Historic Calistoga winery dating back to 1895. Considered by none other than Andre Tchelistcheff, upon his arrival in Napa in 1938 to be one of the 4 best wineries in Napa. The quality of the grapes was such that Dr Harold Olmo, the pioneering viticulturalist from UC-Davis used specific clones from their vineyard to help establish the UC-Davis grapevine nursery with the Larkmead clones being the source for over 50% of all California grapevine plantings between 1958-1978. Today, winemaker Dan Petroski produces highly rated wines that show great power and finesse.

Founded in 1977 by twin brothers Ted and Terry Casteel and their wives Pat Dudley and Marilyn Webb. The Casteels were pioneers in the Eola-Amity Hills AVA planting one of the very first vineyards. The winery now supports multiple generations with winemaking duties handled by Ben Casteel and the organic viticulture by his cousin Mimi Casteel. Producing exclusively from their own 75 acre estate, Bethel Heights, along with Ponzi, were leaders in helping to establish LIVE – a sustainable certification standard that takes into account vineyard and winery practices as well their impact on the surrounding habitat.
