| Historic BC winery located on the Golden Mile Bench. Their main 76 acre block (of 115 total estate acres) was planted in 1968 by it's former owner, an Italian immigrant who suitcased in all of the clippings from Italy, including BC's only planting of Trebbiano. Today, Hester Creek is noted for producing wines of excellent value across the value and premium spectrums sourced in their entirety from the Oliver/Osoyoos appellation. |         |                                |           |          |           |        |

| <p>An exciting new project in Lake Country founded by Albertan Dennis O'Rourke. In 2012 O'Rourke hired Adrian Baker the former Head of Cool Climate Oenology from Craggy Range (NZ), to oversee the mapping of soil types and the planting for a single 200 acre vineyard on a perfect south facing slope over Lake Okanagan. Planted exclusively to Burgundian and Germanic varietals, the vineyard also includes the largest planting of Gruner Veltliner in BC. O'Rourke's Peak Cellars is an entirely estate winery sourcing all of it's grapes from the Lake Country appellation.</p> |      |                    |          |         |           |        |

| <b>REDSTONE – Ontario</b><br><b>ORGANIC / BIODYNAMIC</b><br>Red Stone is the latest venture by Moray Tawse and his award-winning winemaking team of Paul Pender and Rene Van Ede. In his quest to explore terroir, he purchased the 38-acre Lincoln Lakeshore property in 2009. The winery is named for its red clay soil and large stones, perfect for late-ripening varietals including Merlot, Cabernet Franc, Cabernet Sauvignon and Syrah. There is also Pinot Gris on the property. Riesling, Sauvignon Blanc, and Chardonnay from recently acquired Limestone vineyard will round out the estate portfolio. In 2017 Redstone was named "Canadian Winery of the Year" at the National Wine Awards of Canada. |      |                                |          |         |           |  |

| Located in the gorgeous hilltop town of Monforte, the history of this family estate dates back to 1929 when Giovanni Manzone bottled his first wines from the historic hill of "Gramolere" and eventually added bottlings from the Barolo crus of "Castelletto" and "Bricat". The Wine Advocate describes Manzone as a winery that "... continues to produce some of the most unique Barolos in the zone. Although his hometown of Monforte is best known for structured wines, Manzone's vineyards are among the highest in the region, and as a result his wines show unusually delicate, often ethereal personalities" |      |                               |          |         |           |        |

| A small family owned estate founded in 1929 but with roots dating to the 1700s. Run by 3rd and 4th generation vintners Valter and Emmanuel Musso. The emphasis is on organic methods and minimal addition of sulphites results in wines that express the full potential of the sites and of the grapes. Musso is producing some of the highest rated wines of the past several vintages leading one writer to recently describe them as "better than Gaja at 1/12th the price". |      |                                |          |         |           |        |

| <b>TENUTE SALVATERRA – Veneto</b><br><b>SUSTAINABLE</b>   |      |   |          |         |           |  |
| <p>Located in the 16th century estate Villa Giona, Salvaterra was founded by the Furia family in the 1990s. The Furias came from Austria in the late 19th century and over time became the largest landholder in Valpolicella. For decades they leased the land to the Masi and Allegrini families. In the 1990s they formed Tenute Salvaterra to bottle their best parcels while selling off the balance as bulk wine. Their overall scale allows for the incredible value proposition that these wines represent.</p> |      |   |          |         |           |  |

| <p>Official documents from as early as the mid-1500s attest to the Bertani family heritage in the Valpolicella region. At the start of the last half of the 1800s, brothers Gaetano &amp; Giovanni Battista Bertani set out to establish the first commercial bottler in Valpolicella. They introduced revolutionary vine growing techniques developed by agronomist Jules Guyot, techniques to which Gaetano Bertani had been exposed during his years of political exile in France for his active role in the Italian Unification Movement against the Austrian Empire. Today, Gaetano Bertani, great-grandson of founding brother Gaetano, and his sons, Giovanni and Guglielmo, maintain the family tradition and philosophy. Now in its sixth generation, the Bertani enterprise continues in the tradition of one of the oldest winemaking families in Italy.</p> |      |                                       |         |         |           |       |

### LA FIORITA – Tuscany

#### ORGANIC

Small 9 hectare estate started in 1992 by famed Italian wine consultant Roberto Cipresso (Ciacci Piccolomini, Achaval Ferrer). In 2011 he formed a partnership with American actress Natalie Oliveros and in 2019 Oliveros bought out Cipresso. Today the estate is composed of 4 vineyards with an emphasis on viticulture and minimal intervention winemaking via their new gravity fed winery.

### TERRALSOLE – Tuscany

#### ORGANIC

Swiss-born artist Mario Bollag was the first non-Italian to make wine in Montalcino with his first project Il Palazzone. Upon the sale of Il Palazzone to the former head of Time Warner, Bollag purchased a small hilltop from a local shepherd that he transformed into Terralsole "land of the sun". Trained by the godfather of Brunello, Franco Biondi-Santi, Mario produces exquisite wines in a very traditional style at an exceptional price.

| <b>CAPEZZANA – Tuscany</b><br><b>ORGANIC</b><br><p>Historic Tuscan producer whose estate dates to 804 AD. Owned by the Medici family in the 1700s, it was the first demarcated region with its own grape growing rules, establishing the first de facto DOCG in Italy. The 53 km wall separating the Medici's hunting grounds (now known as Carmignano) was called the "Barco Reale". The Capezzana estate was purchased from the Rothschild family in the 1920s by the Bonacossi family who were instrumental in the formation of Carmignano as a formal DOCG. Today Capezzana produces 80% of the entire appellation.</p> |      |                                      |          |         |           |       |

### MAISON MARCHAND-TAWSE – Burgundy

#### ORGANIC / BIODYNAMIC

Canadian Burgundy project uniting Moray Tawse of Ontario's eponymous Tawse Winery with Burgundian winemaking superstar Pascal Marchand, originally from Montreal. In 2012 Tawse purchased the historic Domaine Maume in Gevrey-Chambertin which owns four grand cru parcels. In tandem with Marchand's negociant business they produce over 80 separate bottlings. This duo is at the forefront of a new wave of vignerons, embracing organic and biodynamic farming practices while rejecting dogma in the vineyard or cellar. Straddling the line between tradition and innovation, they are one of the most exciting new projects out of Burgundy in recent years.

| <p>The Burriers have been a prominent winegrowing family in southern Burgundy since the 15th Century and have owned Château de Beauregard in Pouilly-Fuissé for six generations. Frédéric-Marc Burrier is the family member in charge of the château, and runs the négociant business, Maison Joseph Burrier, which was named for his grandfather. In 2015, Maison Joseph Burrier purchased a stake in Domaine de la Rochette in nearby Bussières; a location that Frédéric-Marc identified as the ideal location for high quality, terroir-driven Mâcon white wine. As the president of the local winegrower's association, Frédéric has been one of the leading advocates for classifying the Pouilly-Fuissé region's best climats as premier crus.</p> |         |   |          |          |          |       |

### DOMAINE DE LA SOLITUDE – Rhone

#### ORGANIC / BIODYNAMIC

Chateauneuf-du-Pape translates to "new house of the Pope" and refers to the relocation of the papal court to Avignon in the 14th century. Many Italian nobles moved to the area as well, and, thus the Lancon family members (owners of Domaine de la Solitude) are direct descendants of the Barberini family of Rome, still prominent family in Italy to this day - among their ancestors number Pope Urban VIII and two Cardinals. Since the Renaissance, through the French Revolution and into modern times, the family has played a part in the narrative that has been written about Chateauneuf-du-Pape. The Estate is a single plot of 100 acres, planted to 86 acres of red grapes and 14.8 acres of white grapes, with vines averaging 50 years of age. The viticulture is organic and moving towards biodynamic certification while the viniculture is as non-interventionist as possible under the watchful eye of winemaker Florent Lancon. Domaine de la Solitude produces a very elegant style, regarded as the most "Burgundian" of the major Chateauneuf du Pape houses.

### DOMAINE RICHAUME – Provence

#### ORGANIC / BIODYNAMIC

Situated at the base of Mont Sainte Victoire in the heart of Provence, Richeaume was founded in 1972 by Swiss born/Yale based academic Henning Hoesch. Hoesch had very specific ideas for the estate, becoming one of the first in the region to both farm organically and to plant Bordeaux varietals. In the late 1990s Henning ceded winemaking duties to his son Sylvain, who had trained with Paul Draper at Ridge Winery. Heavily influenced by his time with Draper, Sylvain determined that the Provence AOC rules were not in line with his vision for the wines so Richeaume works exclusively under the IGP designation because it affords more creativity with less rigid regulation.

| <p>Quinta do Vallado estate has been family-owned since 1716 originally owned by the legendary Doña Antonia Adelaide Ferreira. Today the winery is owned by João Ferreria Alvares Ribeiro, Francisco Ferreira and Francisco Olazabal. It is one of the oldest and most famous “Quintas” in the Douro region. The old vines, which make up almost 40% of the vineyards are at least 80 years old. The family sold the Ferreira port house 20 years ago in order to focus on the exquisite table wines that today compose the Valladoporfolio.</p> |         |                          |           |         |           |        |

| <b>GOMEZ CRUZADO – Rioja</b>   |  |  |  |  |  |  |
| <b>SUSTAINABLE</b>   |  |  |  |  |  |  |
| <p>The Gómez Cruzado winery dates back to 1886 when Angel Gómez de Arteche started to produce and bottle his own wine in Haro, at the very heart of Rioja Alta. This was in the day when the wine trade between Rioja and France passed along the Tudela-Bilbao line, and the key Rioja wineries were located around the station of Haro. The winery sits just 100m from the station to this day. Subsequently bought by Angel and Jesus Gomez Cruzado in 1916, and more recently by the Baños family, David González (winemaker) and Juan Antonio Leza (viticulturalist) now head up the winemaking team. They have been working with Gomez Cruzado for over 10 years, crafting wines from vineyards of old bush vines in the most elevated areas of Rioja Alta and Alavesa. They source from almost a hundred different plots across 3 distinct regions: Alto Najerilla, Bajo Najerilla and Sierra Cantabria. Sierra Cantabria (Rioja Alta and Alavesa).</p> |  |  |  |  |  |  |

### PAGO DE CARRAOVEJAS – Ribera del Duero

#### SUSTAINABLE

One of the oldest family run wineries in Ribera del Duero founded by Jose Maria Ruiz, owner of the famed Restaurante Jose Maria in Segovia. At 120 hectares, their substantial production is overseen by consultant Xavier Ausas, former winemaker for Vega Sicilia. The focus is on premium reds at higher altitudes.

### MILSETENTAYSEIS (1076) – Ribera del Duero

#### SUSTAINABLE

At 1076 metres above sea level Milsetentayseis (Spanish for 1076) is the highest vineyard in Ribera del Duero. Overseen by renowned Spanish enologist Patricia Benitez, the project seeks to restore 75-100 year old varieties that have specially adapted to this incredible terroir - Tempranillo, Abillo, Monastrell & Grenache.

### OSSIAN VIDES Y VINOS – Castilla y Leon

#### ORGANIC

A remarkable project focussed exclusively on a single vineyard of ungrafted, prephylloxera Verdejo vines, some 200+ years old. Because the sandy soils of Rueda prevented the spread of phylloxera this remains one of the oldest vineyards in all of Europe. The renowned white wine specialist Rafael Palacios consults on the project.

| <b>VINA MEIN – EMILIO ROJO – Ribeira</b><br><b>ORGANIC</b>  |         |                   |         |          |           |       |
| <p>The two leading white wine producers of Ribeira were purchased by the Ruiz family of Pago de Carraovejas in July 2019. The Mein vineyard dates to 1158 as a vineyard noted for its outstanding quality of grapes. Vina Mein was undertaken in 1988 by Javier Alen and was focused on restoring indigenous varieties that almost gone extinct, notably Treixadura. Emilio Rojo, is a famed iconoclast who focussed on a single wine, a blend of Treixadura and other indigenous varieties. His search for complexity and terroir expression of his tiny 1.2 hectare vineyard has earned him the respect and admiration of his peers. Emilio Rojo continues to consult for this project.</p> |         |                   |         |          |           |       |

| <b>FAR NIENTE – California, Napa Valley</b><br><b>ORGANIC</b><br>Historic Napa winery founded in 1885 by John Benson, a forty-niner of the Gold Rush. Far Niente prospered until the onset of Prohibition in 1919, whereupon it fell into disrepair. In 1979 Gil Nickel purchased the winery and the adjacent vineyard and began a three year restoration process that succeeded in restoring the winery to its former glory. Nickel & Nickel is a subsidiary project that focuses on single AVA Cabernet Sauvignons that express the diversity of Napa Valley. En Route focuses exclusively on Pinot Noirs and Chardonnays from the Russian River Valley. |      |   |         |          |           |        |

**PEDRONCELLI – California, Sonoma Valley**

**SUSTAINABLE**

Grape growing since 1927 in Sonoma County for four generations. Second, third and fourth generations work side-by-side today. The Pedroncelli family farms 105 acres of estate vineyard in northern Dry Creek Valley and sources fruit from neighboring growers making regionally focused, perfectly balanced, varietally correct wines.

**RHYS VINEYARDS – California, Santa Cruz**

**ORGANIC / BIODYNAMIC**

Recommended to us by none other than Larry Stone, Rhys Vineyards was founded in 2004 by Kevin Harvey, a tech entrepreneur and passionate wine collector who frequented the vineyards of Burgundy and became close friends with a number of families behind the top domaines of the Cotes d'Or. When he started dabbling with the idea of planting his own Pinot Noir vines, Harvey was privileged to have access to these friends' properties – researching the terroir, soil depth, structure, chemistry, hydrology, climate, among other attributes. Harvey then utilized this information to seek out what he thought were the best sites in California, looking for analogies in the vital characteristics that he believed drove the quality of the wine. His research led him to his own backyard – the rugged, rocky terroir of the Santa Cruz Mountains. Today, Rhys is a benchmark producer of great Pinot Noir, Chardonnay and Syrah with seven estate vineyards; six in the Santa Cruz Mountains and one in Anderson Valley, each capable of producing uniquely compelling, distinctive, soil-driven wine.

| <b>MAISON NOIR – Oregon</b><br><b>SUSTAINABLE / ORGANIC</b>  |         |  |          |         |           |       |
| <p>Maison Noir Wines was founded in 2007 by winemaker/sommelier/designer André Hueston Mack, a Per Se and French Laundry alumni, incorporating his trademark style to create a hip, street culture brand reminiscent of 90s skateboarding apparel. The wines are unique and distinctive garage wines (micro-négociant) which source the best fruit possible from a diverse array of name Oregon vineyards. The wines reflect the individuality of their respective sites and terroirs with uncommon flair and style.</p> |         |  |          |         |           |       |

| <b>GARAGE WINE CO. – Maule</b><br><b>ORGANIC</b>  |      |  |          |         |           |         |
| <p>Garage Wine Co. is the brain child of Ontario native Derek Mossman and his Chilean wife Pilar Miranda. Started, literally, in their Garage, it has grown to be a unique and dynamic project focussed on a series of individual old-vine, dry-farmed vineyards located in the Maule &amp; Itata Valleys, south of Santiago. These small parcels are either farmed by them or the local subsistence farmers who continue to hand tend the vineyards traditionally. All lots are vinified separately with very low intervention. When Derek speaks of "provenance" he is referring beyond the terroir to the farming practices &amp; traditions that have shaped the identity of these vineyards and the wines.</p> |      |  |          |         |           |         |

| <b>VER SACRUM – Uco Valley</b><br><b>ORGANIC</b>   |         |  |          |         |           |        |
| <p>Eduardo Soler and two friends started Ver Sacrum in 2012 with the concept of growing and vinifying Rhone varietals in the Uco Valley of Mendoza. Their winemaking ethos focuses on fresh, low alcohol, lighter skin contact, native yeast, honest, and easy drinking wines. All grapes are hand harvested and most are foot crushed as they believe in minimum intervention in the vineyards and winery with no corrections, filtration, or pump overs. They currently make wine from two different vineyards in Barrancas in Maipu and Los Chacayes in Uco Valley. They have planted Grenache, Monastrell, Carignan, Roussane, Marsanne, Mencia, Syrah, Teroldego, and Nebbiolo.</p> |         |  |          |         |           |        |

| <b>LA CAYETANA – Mendoza</b><br><b>ORGANIC</b>   |      |                                    |         |         |           |        |
| <p>This is the sister project to Ver Sacrum. French grape varieties didn't really exist in Argentina prior to the mid-19th Century. Finca La Cayetana, just a short drive from Mendoza City, was the first planted with French grapes and was fully planted (70 Hectares) by 1860. The first building here was constructed in the late 1700s and was later extended in 1865 and 1949, the manor house of the first large winery estate in the area. The house was purchased in 2013 by Eduardo and Emilia Soler (Eduardo of Ver Sacrum) and is today home to an experimental vineyard / nursery as well as a cornucopia of stunning artworks.</p> <p>La Cayetana is fundamentally Emilia's project, with Eduardo's assistance in the vineyard and tiny winery (garage!). There are plantings of Cabernet Franc, Pinot Noir, Syrah and Pedro Ximenez (Criolla Blanca). Ancient techniques such as biological ageing (maturation under flor) are practiced alongside modern precision viticulture, all with the aim of restoring the great tradition of Los Vinos de la Tierra de la Cruz de Piedra.</p> |      |                                    |         |         |           |        |

| <b>ELEPHANT GIN – Hamburg, Germany</b><br><b>SUSTAINABLE</b><br>A trip to South Africa help lead to the creation of German-made Elephant Gin. Inspired by the unique botanicals that they found on their trip, Elephant Gin's creators wanted to create a premium gin that combine these ingredients with more traditional gin botanicals. 14 total botanicals, including juniper, buchu, baobab, lion's tail, devil's claw, african wormwood, apple, ginger, mountain pine, orange peel and pimento, are maccerated together a full day in the base spirit before being distilled. For every purchase of Elephant Gin, 15% of the profits are donated to wildlife conservation in Africa. |    |                       |         |         |           |  |
