| SEVEN STONES WINERY - Similkameen Valley, BC SUSTAINABLE | | | | | | |
| <p>Seven Stones was the passion project of George Hanson, one of the pioneers to see the potential of the Similkameen Valley, particularly, for Bordeaux varietals and Syrah. George passed in 2020 and the winemaking torch has been passed on to Dwight Sick, the former winemaker for Stags Hollow and Moraine. George's philosophy included cellaring the wines for several years before releasing them so we are blessed with delicious back vintages. These wines showcase the ageability of the unique terroir of the Similkameen Valley, home to some of the best big reds that BC has to offer.</p> | | | | | | |

| REDSTONE - Niagara, Ontario ORGANIC / BIODYNAMIC <p>Red Stone is the latest venture by Moray Tawse. In his quest to explore terroir, he purchased the 38-acre Lincoln Lakeshore property in 2009. The winery is named for its red clay soil and large stones, perfect for late-ripening varietals including Merlot, Cabernet Franc, Cabernet Sauvignon and Syrah. There is also Pinot Gris on the property. Riesling, Sauvignon Blanc, and Chardonnay from recently acquired Limestone vineyard will round out the estate portfolio. In 2017 Redstone was named "Canadian Winery of the Year" at the National Wine Awards of Canada.</p> | | | | | | |

| GIOVANNI MANZONE - Piedmont ORGANIC <p>Located in the gorgeous hilltop town of Monforte, the history of this family estate dates back to 1929 when Giovanni Manzone bottled his first wines from the historic hill of "Gramolere" and eventually added bottlings from the Barolo crus of "Castelletto" and "Bricat". The Wine Advocate describes Manzone as a winery that "... continues to produce some of the most unique Barolos in the zone. Although his hometown of Monforte is best known for structured wines, Manzone's vineyards are among the highest in the region, and as a result his wines show unusually delicate, often ethereal personalities"</p> | | | | | | |

| ENRICO SERAFINO - Piedmont ORGANIC <p>Enrico Serafino is the oldest winery in the Roero area, having been established by a gentleman of the same name in Canale d'Alba in 1878. Due to its very long history of making Barolo in Canale, the Enrico Serafino winery is grandfathered as an exception to the requirement to vinify Barolo inside the limits of the Barolo DOCG. Today the winery owns 25 acres of Barolo vineyards in the renowned areas of Serralunga, Monforte d'Alba, and Castiglione Falletto and also makes traditional red wines of Barbera d'Alba and Nebbiolo d'Alba. The winery was purchased by the Krause family in 2016 who also own Vietti.</p> | | | | | | |

| MUSSO - Piedmont ORGANIC | | | | | | |
| <p>A small family owned estate founded in 1929 but with roots dating to the 1700s. Run by 3rd and 4th generation vintners Valter and Emmanuel Musso. The emphasis is on organic methods and minimal addition of sulphites results in wines that express the full potential of the sites and of the grapes. Musso is producing some of the highest rated wines of the past several vintages leading one writer to recently describe them as "better than Gaja at 1/12th the price".</p> | | | | | | |

| PICO MACCARIO - Piedmont SUSTAINABLE | | | | | | |
| <p>Pico Maccario is a Barbera specialist located in the town of Mombaruzzo in the heart of Piedmont's Barbera d'Asti DOCG. Brothers Pico and Vitaliano created the Pico Maccario brand in 1997 following four generations of selling the family grapes to other producers. Pico Maccario's winemaking style is to respect the true varietal character of Barbera, delivering wines with focused, clean aromas, and balanced, pleasant acidity.</p> | | | | | | |

| ERCOLE - Piedmont SUSTAINABLE | | | | | | |
| <p>Brought to Revelry via our New York friend, "The Piedmont Guy". Ercole, whose English translation is Hercules, is only made possible by a generations-old cooperative of local growers in the Monferrato area. The place, Monferrato, ranks among the most historic grape-growing areas of Piedmont. The fruit from this overlooked area gives us Ercole, a family of wines offering great label design and remarkable value in a 1 litre format.</p> | | | | | | |

| TENUTA SANTA MARIA DI GAETANO BERTANI - Veneto | | | | | | |
| ORGANIC | | | | | | |
| <p>Official documents from as early as the mid-1500s attest to the Bertani family heritage in the Valpolicella region. At the start of the last half of the 1800s, brothers Gaetano & Giovanni Battista Bertani set out to establish the first commercial bottler in Valpolicella. They introduced revolutionary vine growing techniques developed by agronomist Jules Guyot, techniques to which Gaetano Bertani had been exposed during his years of political exile in France for his active role in the Italian Unification Movement against the Austrian Empire. Today, Gaetano Bertani, great-grandson of founding brother Gaetano, and his sons, Giovanni and Guglielmo, maintain the family tradition and philosophy. Now in its sixth generation, the Bertani enterprise continues in the tradition of one of the oldest winemaking families in Italy.</p> | | | | | | |

| CANTINA GORGO - Veneto | | | | | | |
| ORGANIC | | | | | | |
| <p>Roberto Bricolo started Gorgo back in 1973 with 22 hectares. Today it stretches over 60 hectares, almost all part of the "Bianco di Custoza" and "Bardolino" production areas. He runs the estate with the help of his daughter Roberta. The wines are fresh and direct, with a winning minerality, and have been widely recognized by Gambero Rosso and the rest of the Italian wine press. Gorgo sits on glacial moraine just south east of Lake Garda, near the village of Custoza. The light textured soil of this area is typically whitish, and consists of rock fragments, pebbles, humus and silt rich in calcium carbonate concentration at high pH. The vineyards are managed using traditional local methods including the use of organic fertilizers, and plowing of the vineyards. Harvest, which is almost entirely by hand, can stretch over 45 days to achieve full maturity.</p> | | | | | | |

| TERRALSOLE- Tuscany ORGANIC | | | | | | |
| <p>Swiss-born artist Mario Bollag was the first non-Italian to make wine in Montalcino with his first project Il Palazzone. Upon the sale of Il Palazzone to the former head of Time Warner, Bollag purchased a small hilltop from a local shepherd that he transformed into Terralsole "land of the sun". Trained by the godfather of Brunello, Franco Biondi-Santi, Mario produces exquisite wines in a very traditional style at an exceptional price.</p> | | | | | | |

| BINDI-SERGARDI - Tuscany SUSTAINABLE / TRANSITIONAL ORGANIC | | | | | | |
| <p>The Bindi Sergardi family heritage is one closely tied with the history of the Chianti and Chianti Classico region. For twenty-three generations—since 1349—the family has been deeply involved in the politics, economics, and culture of Siena. From being leaders of the Siena government in the 15th Century to one of the founding members of the Chianti Classico Consorzio in 1924, the Bindi Sergardi family lives and breathes the history of the region. The current manager, Alessandra Casini Bindi Sergardi joined the company in 2005 following the 700 years-old tradition of her family in wine making. Inspired by her father Nicolo and following the courageous example of her grandmother Chiara and great grand mother Elisabetta, she gave new light to the family business. They make wine from their three estates: Tenuta Mocenni, Tenuta I Colli, and Tenuta Marcanella. Through their work in the vineyards and cellar they are true Sangiovese specialists.</p> | | | | | | |

| TENUTA CASENUOVE - Tuscany ORGANIC | | | | | | |
| <p>Tenuta Casenuove covers some 100 hectares at the heart of Chianti, not far south of Florence, Tuscany. Commercialisation not being the primary concern, the domain has just 28 hectares of vines planted on the best parcels, the rest being left wild. The famous 'galestro', a mix of schist and clay, contributes to the elegance and finesse of the property's production. Of course there is plenty of Sangiovese planted here (10.5 hectares), though merlot and Cabernet Sauvignon are also perfectly adapted to the Tuscan climate. Acquired in 2014 by Philippe Austruy, owner of a cru bourgeois in the Haut-Medoc and a "quinta" in the Douro valley, Tenuta Casenuove was an instant favourite with its subtle wines and immense landscape. The domain produces wine under the Chianti Classico Riserva appellation as well as IGT Tuscany in order to create the blends of their choice.</p> | | | | | | |

| IL PALAZZO - Tuscany SUSTAINABLE | | | | | | |
| <p>For centuries Il Palazzo estate has been a stopping point for travelers because of its location along the ancient Via Ariminensis or Salt Road which connected Rome to Rimini. Today it boasts a spectacular agriturismo lovingly restored by the Banelli family in the 1970s along with olive groves and vineyards. This inaugural, export release of the wines, produced from the 105 acre estate just outside of the Classico zone, represent tremendous quality and value. Il Palazzo shares the same winemaker with Tenuta Setti Ponti.</p> | | | | | | |

| TENUTA DI CAPEZZANA - Tuscany ORGANIC | | | | | | |
| <p>Historic Tuscan producer whose estate dates to 804 AD. Owned by the Medici family in the 1700s, it was the first demarcated region with its own grape growing rules, establishing the first de facto DOCG in Italy. The 53 km wall separating the Medici's hunting grounds (now known as Carmignano) was called the "Barco Reale". The Capezzana estate was purchased from the Rothschild family in the 1920s by the Bonacossi family who were instrumental in the formation of Carmignano as a formal DOCG. Today Capezzana produces 80% of the entire appellation.</p> | | | | | | |

| VIGNAMATO - San Paolo di Jesi, Marche ORGANIC | | | | | | |
| <p>In the late 1940's, Umberto Ceci bought a small plot of land in the San Paolo di Jesi based hamlet of Battinebbia – An area renowned for the quality of its Verdicchio grapes. In the early 1950s, the land was passed down to son to Amato and his wife Maria, keen growers who began selling the family's wines to village locals from the farm building on the estate. In time the winery began to achieve much acclaim across the region, and the third generation of the Ceci family was drawn into the project – Maurizio and his wife Serenella formally established the estate and named it Vignamato, and began exporting to countries outside of Italy. The youngest generation of Ceci's, brothers and sisters Alessandra, Andrea, and Francesco, now run the daily operations here, and they are taking things to even higher levels. Their top white wine "Ambrosia" has been named Tre Bicchieri the past three vintages by Gambero Rosso.</p> | | | | | | |

| D'ANGELO - Basilicata ORGANIC | | | | | | |
| <p>D'Angelo is a historical family estate in the heart of the major appellation of Italy's deep Southern region of Basilicata. Producing wine on the slopes of mount Vulture, an acidic Volcano (now extinct) since the 1930's and concentrating on the 'Aglianico' varietal, Southern Italy's king of red grapes. The winery concentrates on various single-vineyard expressions of the Aglianico grape and possesses some of the oldest and most important CRU vineyards on the volcano, benefitting from impeccable exposure and high elevation, as well as mineral rich volcanic soils. The secret to D'Angelo's complexity and character is their higher elevation, which allows for heavy diurnal temperature variations whilst maintaining a strong sun typical of Southern Italy. This concentrates aromas and boosts the intensity of the wines, as well as allowing for a strong acidic backbone, whilst allowing for the ripeness to proceed undisturbed.</p> | | | | | | |

| CANTINE FINA - Sicily ORGANIC | | | | | | |
| <p>For many years Bruno Fina was the director of the viticultural research institute on Sicily. After working for more than 20 years with one of the most influential enology consultants in Italy, Giacomo Tachis ("Godfather of the Super Tuscans" and collaborator on Tignanello, Sassacaia, and Solaia), Bruno left nothing to chance when researching the best terroir and microclimates in Sicily to plant his vineyards. Sandy and salty soils were selected for the Grillo and Zibibbo vines, Viognier, Sauvignon Blanc and Traminer vines planted on the hills and mountains in the area of Trapani and the Madonie vines were planted with north exposure in order to hide from the hot and strong Sicilian sun.</p> | | | | | | |

| MAISON MARCHAND-TAWSE - Burgundy ORGANIC / BIODYNAMIC | | | | | | |
| <p>Canadian Burgundy project uniting Moray Tawse of Ontario's eponymous Tawse Winery with Burgundian winemaking superstar Pascal Marchand, originally from Montreal. In 2012 Tawse purchased the historic Domaine Maume in Gevrey-Chambertin which owns four grand cru parcels. In tandem with Marchand's négociant business they produce over 80 separate bottlings. This duo is at the forefront of a new wave of vigneron, embracing organic and biodynamic farming practices while rejecting dogma in the vineyard or cellar. Straddling the line between tradition and innovation, they are one of the most exciting new projects out of Burgundy in recent years.</p> | | | | | | |

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------------------------------------------------------------|----------|---------|----------|--|
| <p>The Burriers have been a prominent winegrowing family in southern Burgundy since the 15th Century and have owned Château de Beauregard in Pouilly-Fuissé for six generations. Frédéric-Marc Burrier is the family member in charge of the château, and runs the négociant business, Maison Joseph Burrier, which was named for his grandfather. In 2015, Maison Joseph Burrier purchased a stake in Domaine de la Rochette in nearby Bussières; a location that Frédéric-Marc identified as the ideal location for high quality, terroir-driven Mâcon white wine. As the president of the local winegrower's association, Frédéric has been one of the leading advocates for classifying the Pouilly-Fuissé region's best climats as premier crus.</p> | | | | | | |

| QUINTA DO VALLADO - Douro ORGANIC <p>Quinta do Vallado estate has been family-owned since 1716 originally owned by the legendary Doña Antonia Adelaide Ferreira. Today the winery is owned by João Ferreria Alvares Ribeiro, Francisco Ferreira and Francisco Olazabal. It is one of the oldest and most famous "Quintas" in the Douro region. The old vines, which make up almost 40% of the vineyards are at least 80 years old. The family sold the Ferreira port house 20 years ago in order to focus on the exquisite table wines that today compose the Valladoportfolio.</p> | | | | | | |

| CHURCHILL'S - Douro ORGANIC <p>Churchill's was founded by Johnny Graham, scion of the famed Graham family, in 1981. His family's own company had been acquired in 1970 by Symington Family Estates (Graham's, Warre's, Dow's, Cockburn's, Smith Woodhouse, and others), and at the time he struck out on his own he was establishing the first new Port house in half a century. To this day, Churchill's remains one of the most significant boutique houses outside the umbrella of Symington Family Estates and Taylor Fladgate (Taylor's, Fonseca, Croft, and others.) All Churchill's grapes are sourced from Grade-A (the highest in the Douro's rating scheme) vineyards, and all grapes receive 'vintage' treatment at the outset: crushed and vinified in granite lagares, where they undergo the time-honored and costly process of human foot-treading for extraction. A key factor in Churchill's relatively dry style is a longer-than-normal fermentation time, which also means that the proportion of alcohol from added brandy is lower than normal in these wines.</p> | | | | | | |

| ASHES + DIAMONDS - Napa Valley, California BIODYNAMIC Ashes & Diamonds, 'a love letter to the Napa Valley of the 1960s,' has set out to revive this storied era's pioneering energy. Kashy Khaledi has built a winery driven by collaboration, seeking the participation of Napa's contemporary voices in viticulture and enology. Sourcing grapes from many of California's most historic vineyards, A&D focusses on organic farming and restrained winemaking—with Steve Matthiasson and Diana Snowden-Seysseys at the helm. | | | | | | |

| FAR NIENTE - Napa Valley, California ORGANIC <i>Historic Napa winery founded in 1885 by John Benson, a forty-niner of the Gold Rush. Far Niente prospered until the onset of Prohibition in 1919, whereupon it fell into disrepair. In 1979 Gil Nickel purchased the winery and the adjacent vineyard and began a three year restoration process that succeeded in restoring the winery to its former glory. Nickel & Nickel is a subsidiary project that focuses on single AVA Cabernet Sauvignons that express the diversity of Napa Valley. En Route focuses exclusively on Pinot Noirs and Chardonnays from the Russian River Valley.</i> | | | | | | |

| LARKMEAD - Napa Valley, California ORGANIC <i>Historic Calistoga winery dating back to 1895. Considered by none other than Andre Tchelistcheff, upon his arrival in Napa in 1938 to be one of the 4 best wineries in Napa. The quality of the grapes was such that Dr Harold Olmo, the pioneering viticulturalist from UC-Davis used specific clones from their vineyard to help establish the UC-Davis grapevine nursery with the Larkmead clones being the source for over 50% of all California grapevine plantings between 1958-1978.</i> | | | | | | |

| COBB WINES - Sonoma Coast, California ORGANIC <i>In 2001, two generations of the Cobb family came together to explore a shared passion for pinot noir with the founding of Cobb Wines. Focused exclusively on crafting single-vineyard, Sonoma Coast pinot noirs, Cobb Wines combines the winegrowing expertise of David Cobb—one of the pioneers of pinot noir viticulture on the far Sonoma Coast—with the winemaking talents of his son, noted pinot noir specialist Ross Cobb. Cobb produces some of the most distinct and sought after Pinot Noirs from California with a focus on six micro-cuvees, all of which are farmed meticulously.</i> | | | | | | |

| BETHEL HEIGHTS VINEYARD - Eola-Amity Hills, Oregon LIVE / ORGANIC | | | | | | |
| <p>Founded in 1977 by twin brothers Ted and Terry Casteel and their wives Pat Dudley and Marilyn Webb. The Casteels were pioneers in the Eola-Amity Hills AVA planting one of the very first vineyards. The winery now supports multiple generations with winemaking duties handled by Ben Casteel and the organic viticulture by his cousin Mimi Casteel. Producing exclusively from their own 75 acre estate, Bethel Heights, along with Ponzi, were leaders in helping to establish LIVE – a sustainable certification standard that takes into account vineyard and winery practices as well their impact on the surrounding habitat.</p> | | | | | | |

| MAISON NOIR - Oregon SUSTAINABLE / ORGANIC | | | | | | |
| <p>Maison Noir Wines was founded in 2007 by winemaker/sommelier/designer André Hueston Mack, a Per Se and French Laundry alumni, incorporating his trademark style to create a hip, street culture brand reminiscent of 90s skateboarding apparel. The wines are unique and distinctive garage wines (micro-négociant) which source the best fruit possible from a diverse array of name Oregon vineyards. The wines reflect the individuality of their respective sites and terroirs with uncommon flair and style.</p> | | | | | | |

| GARAGE WINE CO. - Maule ORGANIC Garage Wine Co. is the brain child of Ontario native Derek Mossman and his Chilean wife Pilar Miranda. Started, literally, in their Garage, it has grown to be a unique and dynamic project focussed on a series of individual old-vine, dry-farmed vineyards located in the Maule & Itata Valleys, south of Santiago. These small parcels are either farmed by them or the local subsistence farmers who continue to hand tend the vineyards traditionally. All lots are vinified separately with very low intervention. When Derek speaks of "provenance" he is referring beyond the terroir to the farming practices & traditions that have shaped the identity of these vineyards and the wines. | | | | | | |

| VER SACRUM - Uco Valley ORGANIC | | | | | | |
| <p>Eduardo Soler and two friends started Ver Sacrum in 2012 with the concept of growing and vinifying Rhone varieties in the Uco Valley of Mendoza. Their winemaking ethos focuses on fresh, low alcohol, lighter skin contact, native yeast, honest, and easy drinking wines. All grapes are hand harvested and most are foot crushed as they believe in minimum intervention in the vineyards and winery with no corrections, filtration, or pump overs. They currently make wine from two different vineyards in Barrancas in Maipu and Los Chacayes in Uco Valley. They have planted Grenache, Monastrell, Carignan, Roussane, Marsanne, Mencia, Syrah, Teroldego, and Nebbiolo.</p> | | | | | | |

| LA CAYETANA - Mendoza ORGANIC | | | | | | |
| <p>This is the sister project to Ver Sacrum. French grape varieties didn't really exist in Argentina prior to the mid-19th Century. Finca La Cayetana, just a short drive from Mendoza City, was the first planted with French grapes and was fully planted (70 Hectares) by 1860. The first building here was constructed in the late 1700s and was later extended in 1865 and 1949, the manor house of the first large winery estate in the area. The house was purchased in 2013 by Eduardo and Emilia Soler (Eduardo of Ver Sacrum) and is today home to an experimental vineyard / nursery as well as a cornucopia of stunning artworks.</p> <p>La Cayetana is fundamentally Emilia's project, with Eduardo's assistance in the vineyard and tiny winery (garage!). There are plantings of Cabernet Franc, Pinot Noir, Syrah and Pedro Ximenez (Criolla Blanca). Ancient techniques such as biological ageing (maturation under flor) are practiced alongside modern precision viticulture, all with the aim of restoring the great tradition of Los Vinos de la Tierra de la Cruz de Piedra.</p> | | | | | | |

| OTRONIA - Patagonia Extrema ORGANIC | | | | | | |
| <p>Grupo Avinea's cool climate chardonnay and pinot noir project located at the furthest edge of Patagonia. It is the southernmost vineyard in the world, 100 miles south of New Zealand's Otago region. The winemaking is handled by Juan Pablo Murgia in consultation with Alberto Antonini. The climate is so extreme that the vines are half the size of those that grow in the Valle de Uco, but flourishing in the otherwise rich soils. Unsurprisingly, for wines grown in such unique conditions, they are unusual expressions of each grape variety. The Chardonnay has a blend of explosive acidity and pungent fruits sometimes seen in New Zealand while the Pinots have a delicious combination of savoury and sweet fruits with tremendous delicacy.</p> | | | | | | |

| SLINGSBY GIN - Harrogate, United Kingdom SUSTAINABLE <p>Originating from North Yorkshire, Slingsby Gin is composed of spring water from Harrogate, single grain wheat spirit, and 24 botanicals (many of which are grown in Harrogate), including three types of thyme, grapefruit, rhubarb, nettles, jasmine and heather. The botanicals are sent to Langley Distillery near Birmingham for distillation before being bottled in Middlesbrough. With Slingsby Gin aiming to represent Harrogate and its heritage, it is named after William Slingsby who discovered the restorative qualities of Harrogate's spring water in the 16th Century - a discovery that saw the Harrogate grow prosperously as spa town.</p> | | | | | | |

| CHATEAU DE LACQUY - Landes, Bas Armagnac SUSTAINABLE <p>Chateau de Lacquy is one of the most prestigious and legendary producers in the Bas-Armagnac and a part of the five "Cru Legendaire" (legendary growths). Chateau de Lacquy has belonged to the aristocratic Boisseson family since 1711, thus making it the oldest family-owned producer of Armagnac. Though Chateau de Lacquy comprises 400 hectares of forests and agricultural land, only 18 hectares of the estate are dedicated to the production of Bas Armagnac resulting in very limited quantities of a legendary spirit.</p> | | | | | | |
